Professional experience and volunteering

MKA: Community operations Coordinator (Volunteering) 11/2025-Current

- Partnered up with salvation army and was able to raise over £6000 from the community. We made quality hot food for the residents with that money.
- Got in contact with the welcome project in Ilford and donated clothes.
- Also got in contact with different care homes and comforted all of the residents.
- ***Skills developed-*** *Organising, Communication, Collaboration, financial responsibility*

MKA: Regional General Secretary (Volunteering) 11/2025-Current

- Get in contact with local youth leaders and make sure their reports are submitted on time.
- Reviews the reports making sure it's accurate and has no missing information.
- Organised and led regional meetings if there are any new updates.
- ***Skills Developed-*** *Attention to detail- Analysing- Data verification- problem solving- Time management.*

London Success Academy: Cyber Security Internship 03/2026- 04/2026

- Learned about security monitoring and threat detection and then was given a scenario where we had to identify system risks.
- Learned about vulnerability assessment, risk analysis and incident response.
- Delivered a final presentation showcasing a security case study.
- ***Skills Developed -*** *public speaking, Threat analysis, Incident response.*

Ford Motor Company: Parts Advisor(Work experience) 03/2024-03/2024

- Managed inventory using their IT system, identifying shortages and efficiently processing replacement orders..
- Accurately inputting data for parts coming in and out ensuring accuracy with the physical stock and the digital system.
- Liaise with mechanics to make sure all car parts were in stock for them
- ***Skills Developed -*** *Data analysis, Data entry, Communication, Database management, Inventory control.*

Projects

Personal portfolio website (saq564.github.io)

- Designed and launched my own portfolio website, hosted on GitHub Pages, with a dark/light mode and a mobile-friendly layout.
- Added an "Ask AI" chat where visitors can ask questions about me, and a hidden terminal with commands.
- Made with HTML, CSS and JavaScript, and tested on phones and in-app browsers such as Snapchat.

AI assistant – RAG engine (in progress)

- Building an AI assistant in Python that answers questions from a set of documents and shows which document each answer came from.
- Wrote my own text chunking, TF-IDF search and vector search with NumPy, with automated tests in pytest.
- Next steps: AI embeddings, a faster search index and a FastAPI service to power the chat on my website.

Secure File Vault

- Built a secure file storage using AES-256 encryption to protect files.
- Added accounts so users can securely log in and access their files.

- Built using FastAPI and the database records are managed by SQLAlchemy.

Ghana project

- We raised over £15000 in under a month to build a waterwell and help schools in Ghana.
- Brought sweets and snacks for orphanages and new equipment for schools.

Other skills

Languages- fluent in English, Urdu, Hindi, Punjabi

IT Skills- Ms office applications,(word, Excel, Access, Powerpoint,etc.) Python, SQL, FastAPI, SQLAlchemy, NumPy, Git/GitHub, HTML, CSS, JavaScript.
